Please enter search criteria below to find a patient

Search Criteria	Search Results

NHS Number

Person Family Name

Person Given Name

Person Birth Date

Record ID

Once you land on the home page or 'landing page' as it is known, click on '**Datasets'** then **'NOGCA'**

Enter parameter values ☒

start >=	04/02/2020	📅
end <=	28/04/2020	📅
Org Code at Diagnosis LIKE	rvv09	

OK

The Date parameter search box will load. Here you can enter the date parameters in which you want to search. This can be done by free text or by selecting the calendar function.

Enter the site Code, if your trust has multiple sites you can return all by using the 'like' feature. To do this type in two or three digits of the code followed by * (**Hold shift** & tap number **8**)

For example – RVV* would return RVV01, RVVKC, RVV09 etc.

RWF* would return RWF03 & RWFTW

Once you are happy with your date range and site selection click '**OK**'.

After selecting your date parameters and hospital site you will be presented with a list of patients that are eligible for NOGCA & meet your criteria. You can view the patient information or validate them by selecting a patient from the list. To do this simply click on your desired patient. The highlighted patient bar will turn blue as per below.

Once you have selected the patient we can see their Site code & Diagnosis details including Tumour and the patient's Care plan if one has been agreed.

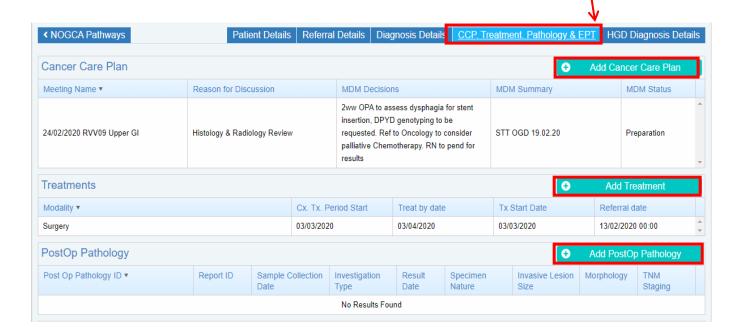

On this page you can validate the data or add more if information has been missed.

The **Orange** highlighted fields are **Mandatory** and the **Care Plan** details are automatically populated from the **Care Plan** event.

Just remember to click save changes when done!

Using the next tab **'CCP, Treatment, Pathology & EPT'** we can view the patients last MDT meeting, Treatment commenced or planned & Post op Pathology if this has been taken and recorded. We can also add to each of these events from this page by clicking on the green '**Add**' button.

Cancer Care Plan				Add Cancer Care Plan
Meeting Name ▾	Reason for Discussion	MDM Decisions	MDM Summary	MDM Status
24/02/2020 RVV09 Upper GI	Histology & Radiology Review	2ww OPA to assess dysphagia for stent insertion, DPYD genotyping to be requested. Ref to Oncology to consider palliative Chemotherapy. RN to pend for results	STT OGD 19.02.20	Preparation

Treatments				Add Treatment
Modality ▾	Cx. Tx. Period Start	Treat by date	Tx Start Date	Referral date
Surgery	03/03/2020	03/04/2020	03/03/2020	13/02/2020 00:00

PostOp Pathology							Add PostOp Pathology	
Post Op Pathology ID ▾	Report ID	Sample Collection Date	Investigation Type	Result Date	Specimen Nature	Invasive Lesion Size	Morphology	TNM Staging

‹ NOGCA Pathways

At the bottom of this page there is an option to add an 'Endoscopic Palliative Therapy.

Endoscopic Palliative Therapy

Details of the first therapeutic procedure

E1. Organisation Code (Endoscopic Palliative Therapy Provider) *

E2. Endoscopic Radiological Procedure Date *

E4. Type of Endoscopic Procedure *

E5. Planned Course of Multiple (endoscopic) treatments

E6. Anaesthesia Used

E8. Method of Stent Placement

E10. Endoscopic Short Term Complications

Save changes

Here we can record the first Palliative Endoscopic procedure the patient has had.

Each field can be completed by using the drop-down menu, calendar or dictionary function. The first field '**Organisation Code**', can be typed in free text using the site code if known.

If the patient has had Endoscopic Palliative Therapy then the NOGCA dataset requires the following 3 fields to be completed to upload the data successfully

- **Organisation Code –** Where the patient was treated

- **Endoscopic Procedure Date** – The date the first Endoscopic procedure was carried out

- **Type of Endoscopic Procedure –** what type of palliative endoscopic procedure did the patient have

Please refer to your local processes with regards to recording these events. Remember to click '**Save changes'**

| Patient Details | Referral Details | Diagnosis Details | CCP, Treatment, Pathology & EPT | HGD Diagnosis Details |

⊕Add HGD Diagnosis

From the available tab's the last one for NOGCA is '**HGD Diagnosis Details'.**

Here is where you can record diagnosis details and treatment planned for High Grade Dysplasia patients.

Once you click on the tab you will see any previously recorded HGD diagnosis details or to add click **'Add HGD Diagnosis'.**
