## **BOARD ASSURANCE FRAMEWORK: OVERVIEW**

## **Definitions:**

**Risk**: this shows the current risk status as agreed with the Executive lead. Where there is more than one risk this is aggregated to form one score.

**Performance:** This information has been provided by the Executive Lead and has been fed into the overall performance against the sub-objectives and more detail is provided in Appendix 4

**Assurance:** This has been assessed by the Trust Secretary in terms of whether the remaining controls and assurances will impact significantly on both reducing the risk but more importantly provide assurance to the Board that it is receiving all necessary information about the management of the risk. The levels of assurance are as follows:

Green: Either good internal assurances or some internal assurances and some external assurances; negative elements that have been addressed:

Yellow: Moderate internal assurances may have a number of negative elements that are not critical or are being addressed in the mitigation:

Amber: Only a small number of weaker assurances; may have some negatives that have not been addressed.

Red: Negative assurances outweigh the positive assurances.

It does not necessarily link to the "action status" reported in the Board Assurance Framework as this merely highlights where there are outstanding gaps in assurance / control, it does not moderate the information.

evidence based decision making and provide clinicians with real time business			
intelligence.			
Risk: Risk is high as it is an on-going piece of work.			
Performance: Objective met as per Appendix 4			
<b>Assurance</b> : Both internal and external assurances, no negatives reported.			

OBJECTIVE	OVERVIEW OF RISK, PERFORMANCE AN		CE AND ASSURANCE
AO 14: Ensure strong financial governance, agree contracts with commissioners that deliver sufficient activity and finance and support a comprehensive internal cost improvement programme where all Divisions deliver cash releasing savings schemes to deliver Trust QIPP targets.	RISK	PERFORMANCE	ASSURANCE
Risk: Risk is extreme due to the impact and likelihood, the risk has			
materialised against the original annual plan.			
Performance: Objective met as per Appendix 4			
<b>Assurance</b> : Assurance against the original objective is negative and this			
outweighs the positive assurance. An IA has been undertaken on Financial			
Governance Review but the outcome will not be reported in the 2013/14 FY.
