Mosaic Profile

Source: 2018 Experian Ltd

Mosaic is a classification system designed by Experian to profile the characteristics of the UK population.

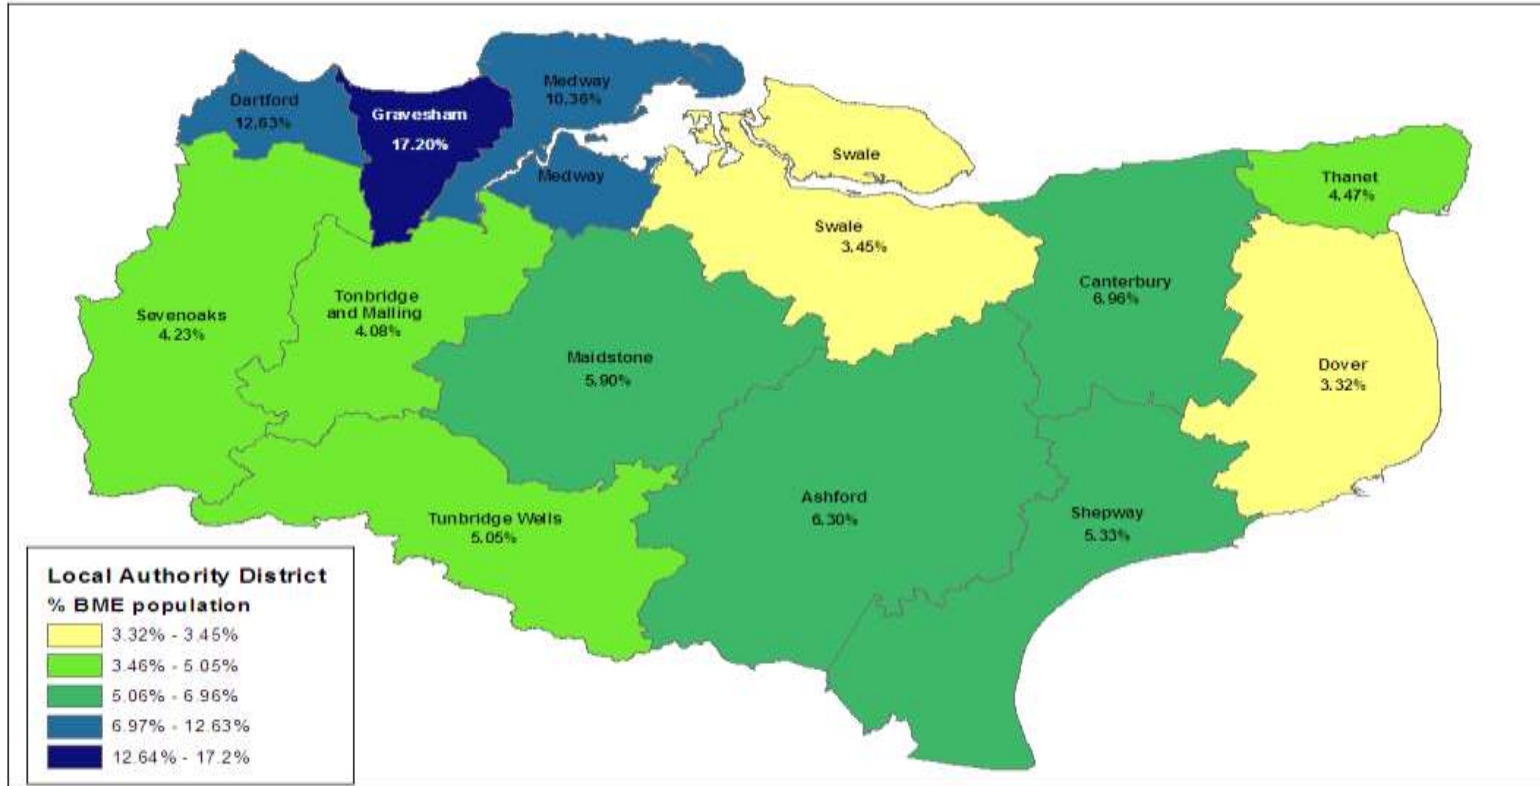

Each household in the UK is classified as belonging to one of 15 groups and 66 types.

These groups identify clusters of individuals and households that are as similar as possible to each other, and as different as possible to any other group.

They describe the residents of a postcode in terms of their typical demographics, their behaviours, their lifestyle characteristics and their attitudes.

This helps to ensure that the right services are provided to the areas that need them.

**Black Minority Ethnic (BME) population as a % of the total resident population:
Kent local authority districts and Medway Unitary Authority**

Glossary

Population by Ethnicity

Ethnic population totals are taken from the 2011 Census which was released in December 2012.

This provides a count of the number of people by ethnicity as at the time of the 2011 Census (27th March 2011)

The 2001 Census used 16 categories of ethnic group, which were then grouped into five broad categories. The more recent 2011 Census used 18 categories of ethnic group but which are also grouped into five broad categories. The two new categories are 'Gypsy or Irish Traveller' and 'Arab'.

Table: KS206EW

Length of Residence in the UK

The length of residence in the UK is derived from the date that a person last arrived to live in the UK. Short visits away from the UK are not counted in determining the date that a person last arrived.

Length of residence is only applicable to usual residents who were not born in the UK. It does not include usual residents born in the UK who have emigrated and since returned

- these are recorded in the category 'Born in the UK'.

Table: KS103EW

Same Sex Households

The same-sex couple consists of two people of the same sex identifying the other as partner.

Following the publications of results on living arrangements, the ONS carried out an exercise to estimate the number of same-sex couples as shown in this table.

These results are not strictly comparable with other results on living arrangements.
