

**East Kent Hospitals University NHS Foundation Trust response to  
The Equality Delivery System for the NHS – EKHUFT Grading Document  
Review by Diversity House**

East Kent Hospitals University NHS Foundation Trust (EKHUFT) is grateful to Christine Locke of Diversity House and to everyone else who participated in this review. It is a document which demonstrates insight and commitment to Equality and Human Rights and in particular to improving access to EKHUFT services.

It is a requirement of the Equality Act 2010 that every public sector organisation prepare and publish Equality Objectives. EKHUFT has used the Equality Delivery System and the Diversity House Review to set objectives which include improving data collection systems.
