

Test results are available within ICE via Patient Reports and once the report is requested the results will be sent back to EMIS. There are several ways to access the results in EMIS, as below:

1. Workflow Manager

| | |
|---|---|
| Click the EMIS ball . |  |
| Click Workflow . |  |
| Click Lab Reports . |  |
| Open the GP inbox and select the patient. Note any reports not matched to a GP can be found under 'Unmatched'. |  |

2. Investigations

| | |
|------------------------------|---|
| Click the EMIS ball . |  |
| Click Care Record . |  |

| | |
|--|---|
| <p>Click Investigations.</p> | <p>Care Record Modules</p> <ul style="list-style-type: none"> Summary Summary of Patient Record Consultations Consultation History Medication Manage Medication Problems Problem Management Investigations Value and Lab Reports Care History Complete Coded History |
| <p>3. Investigations tab</p> | |
| <p>From the Consultations screen click the Investigations tab and all results will display.</p> | <p>ems EMS Web Health Care System</p> <p>Summary Consultations Medication Problems Investigations Care History Diary Documents Referrals</p> <p>Edit Consultation View Deleted Delete Consultation Trend My Consultations Collapse All Filters Test search Print CR Config Information Leaflets Manage fit notes Local Services Outcomes 4Health Add Complete Draft Add Edit View Filter Print Config Search Fit note Open Browser</p> |
