Low-Tech AAC - Core Words and Clothes Shopping

This resource can be used to combine words/symbols in order to form phrases/short sentences:

- The cells are colour coded to aid selection:

    o The **core words/phrases** (green cells in left two columns) are frequently used words/phrases. These can be selected to start a phrase/short sentence

    o Adjectives (blue cells) – can be used to describe clothes items by colour

    o Nouns (grey cells) - 'Clothes' category

    o Examples of how words can be combined: "I like → pink → scarf", "I don't want → green →T-Shirt"

- The AAC user can either point to the words/symbols or their conversation partner can point/ point and say the words aloud (Partner Assisted Scanning, PAS). See separate hand out on- line for advice on PAS.

- This is a flexible tool, so words/phrases can be also used singly e.g. "How much?", "Can I try it on?"

- Feel free to replicate this resource for other topics for your AAC user.

I like	I don't like	Blue	Dress	Skirt
How much ?	Can I try it on ?	Black	Socks	Hat
I want	I don't want	Pink	T-Shirt	Scarf
Do you have a bigger size?	Do you have a smaller size?	Green	Coat	Jumper
There is a problem	Can I return?	Other colour	Shirt	Shoes
